CAPTAIN'S ADDRESS TO ALL HANDS ON V-E DAY.

To-day is Victory-in-Europe Day. After over five years of war the Germans have been vanquished. The MAC KENZIE at Sicily, Anzio, Southern France, and our last shore bombardment on the Franco-Italo border, has greatly contributed to this victory, and we can all feel proud. This victory has been attained thru the help of God, and therefore it is right that we give thanks to God during Devine Services this morning.

This is not a day for celebration, but one for thanks giving that one enemy is conquered; and requesting Gods help in defeating our other enemy. So let us look forward on this V-E day to the time when the MAC KENZIE will join our Pacific Fleet in bringing defeat to the Japanese.

O.D. Hughlett
